

The Brexit border crossing is changing!

From 1st April 2025, you will need to present an Obligatory Logistics Envelope (ELO) at each border crossing

The compulsory presentation of ELO will bring changes for all actors involved in border crossings: get informed and anticipate the changes!

What's changing?

A unique ELO barcode to be presented

by the driver when crossing the Brexit Smart Border. The presentation of the unique ELO barcode is required for all vehicles, loaded and empty.

Smoother border crossings

answers to questions from crossing company agents and customs formalities are now included in ELO upon its creation.

Improved merchandise tracking

thanks to new functionalities enabling ELO creator to monitor the stages of their goods crossing the border and access their ELO history.

What should I do?

Anticipate the changes!

Looking ahead to April 2025, analyse your logistics plans with your partners to anticipate the conditions for the preparation of ELOs.

Get informed!

Find out more about ELO on the French Customs website and consult the support resources available.

Contact customs authorities if necessary.
